Visual Design plan => Example content

1. Design Overview

Briefly describe the overall look and feel of the website.

Example:

The website will have a clean and simple design with a light background and clear navigation. The goal is to make the site easy to read and easy to navigate for users.

---

2. website pages overview

Page Navigation links will include: (For example….)

- Home
- About
- Hobbies

Navigation buttons will have:

- Blue background
- White text
- Etc

Outline the names and purpose of pages on your site.

3. Colour Scheme

Specify your chosen colour scheme for your site e.g. background-color , name/hex valueNavigation, text, buttons, links etc….

Reason for colour choices:

E.g., Blue colours create a professional and calm appearance. Dark text on a light background improves readability.

---

4. Typography (Fonts)

Outline your choice of fonts, (if different for different parts of page content, specify) and **Reason:** for your choice.
